NISREEN MOHAMED ABDULKADER

UI/UX DESIGNER

Alexandria, Egypt | 01021755814 | nisreenabdelkader6@gmail.com

Portfolio: nisreen24.github.io/my-portfolio/

PROFESSIONAL SUMMARY

UI/UX Designer with a background in Management Information Systems and experience designing responsive web and mobile products across healthcare, SaaS, e-commerce, and service platforms. Skilled in translating business requirements into user flows, wireframes, prototypes, design systems, and intuitive interfaces. Experienced in AI-assisted design workflows and cross-functional collaboration through handoff, implementation reviews, QA, and iteration.

PROFESSIONAL EXPERIENCE

UI/UX Designer | TAG | Jun 2025 – Present

- Design and refine digital product experiences through AI-assisted workflows and rapid interactive prototyping.
- Collaborate with development teams on design-to-development workflows, GitHub-based collaboration, and structured handoffs.
- Iterate on interfaces and product implementations to improve usability, consistency, and delivery readiness.

UI/UX Designer | SwiftX | Apr 2026 – Present

- Design end-to-end web and mobile experiences for multi-role products, from information architecture and workflows to high-fidelity UI.
- Translate requirements and user stories into journeys, wireframes, interactive prototypes, and responsive interfaces in Figma.
- Develop reusable components and design-system foundations to improve consistency across products.
- Bridge project managers and developers through handoff, implementation reviews, QA, and iterative refinement.

Graphic Designer | American Council Egypt | 2022 – 2025

- Create logos, visual identities, social media designs, and digital marketing assets aligned with client briefs.
- Develop visual concepts, incorporate feedback, and deliver cohesive, production-ready assets.

SELECTED UI/UX PROJECTS

Dentlora | Dental Healthcare Platform GOOGLE PLAY > VIEW PROJECT >

Designed role-based web and mobile experiences for healthcare professionals and patients, covering appointments, clinical workflows, treatment plans, and patient management.

The Muslim Will (Batrifa) | LegalTech Platform VIEW PROJECT >

Designed and refined multi-step user journeys, client/admin dashboards, document review, and digital attestation workflows.

CRITERRA | Clinical Trial Recruitment SaaS VIEW PROJECT >

Designed multi-role dashboards and recruitment workflows connecting sponsors, healthcare organizations, and doctors.
